CENTER FOR ADVANCED STUDIES

Dear Ladies and Gentlemen,

dear Colleagues,

we cordially invite you to our symposium 'Traumatic Brain Injury' at Center for Advanced Studies, LMU Munich.

Traumatic brain injury (TBI) is very common with about 1.8 million Europeans seeking medical help each year. TBI poses an enormous economic burden and is a major challenge for healthcare providers. This symposium will provide state-of-the-art information about TBI to clinicians and researchers to educate and inspire future research and clinical care. International experts will highlight all important angles of basic and clinical research as well as legal aspects of TBI.
